

65. (New) The method of claim 64 above, further comprising the step of transferring the parameters to the invoked file transfer procedure at the server platform.

66. (New) The method of claim 60 above, wherein one or more of the parameters identifies a file name of the file.

67. (New) The method of claim 66 above, wherein the invoked file transfer procedure at the server platform stores the file in the server platform using the file name.

68. (New) The method of claim 60 above, wherein the file comprises a stored procedure.

69. (New) The method of claim 60 above, wherein the file comprises a user defined function.

REMARKS

Preliminary to a first Office Action in this reissue patent application, the Applicants request that claims 1-32 be amended and new claims 40-69 added, as indicated above. These amendments do not involve any new matter or objectionable changes. When the Examiner takes this application up for action, he is requested to take the foregoing into account.

Should the Examiner identify minor matters that can be resolved in a telephone interview, the Examiner is urged to call the Applicants' undersigned attorney.

Respectfully submitted,

Paul Chun-Hong Leung et al.

By their attorneys,
